Extinguishing the Fires of Rebellion.

The decision of the French Emperor, as communicated to the rebel plenipotentiary—Slidell—will accomplish more toward an extinguishment of the accursed rebellion than a dozen victories to the Federal troops. The taking of Richmond, Petersburg, Mobile and Atlanta simultaneously and with great loss in men and munitions to the South, would not tend so much to weaken and disarm the long-waning rebellion, as the late pronunciamento of Napoleon. Up to the present, the South has relied less upon a successful issue by force of arms than upon a dogged resistance to lawful authority until such time as the leading governments of the Old World would tire of the bloody spectacle, through admiration combined with sympathy pronounce the Confederacy entitled to independence, and by an official recognition, lend them a moral support infinitely better and more serviceable than any aid they have hitherto received in the way of pirate vessels and supplies to carry on the war. Such has been the anticipation of the rebel leaders, and these anticipations were based upon as seemingly solid grounds of inference as science ever requires for its most lucid and profitable deductions. But alas for "the brave Southern heart!" their dependence was upon fallible beings like themselves! They leaned upon a reed which doubtless broke as the result of a well directed broadside from the avenging *Kearsarge*. The first wave which swept over a sinking *Alabama* washed the film of ignorance from French eyes, and exposed to their horror-stricken gaze the iniquity of human bondage. While we believe that full many a rebel inside the Federal lines has become repentant and "taken the oath" when influenced in a similar manner, we rejoice to believe that in Napoleon's decision a die is cast which deprives rebellion of its "forlorn hope."

The decision of England upon the same point is no longer a matter of conjecture. That she will echo the sentiment of France is as certain as that France has made a decision. There are many reasons why she should do so, and none why she should not. It will be a bitter pill, however, for "Christian and anti slavery England" to merely echo the verdict of "Infidel France." It is a prevalent opinion among reflecting men, that the popular pressure upon the aristocracy of "our mother country" would have induced the emancipation of a similar edict by her long ago, but for the tender relations between herself and France, which rendered it dangerous for English nobility to denounce what a French Emperor was expected to recognize. Thus, while England had neither the moral nor physical courage to denounce the wrong and justify the right, her cupidity saw in the struggle enough to induce a closing of the eyes, and at least a passive participation in the most heinous crimes. As the case stands, England cannot—*dare not*—recognize the independence of the States in rebellion upon any other terms than those proposed by France, and upon such terms the South do not wish for independence—their nation could not exist without the sanctification and indestructibility of its "corner stone."

What must be the effect of this announcement upon the armies of the South? The perjured leaders who have by an assumption of power coerced the masses into an attitude of hostility to the North, and who now, by gross misrepresentation and false hopes lure them on to certain destruction, have a desperate game to play. It is with them a question of prolonging life by continuing the contest until the last supporter is gone or taking the chance of escape by ignominious flight to some foreign land. They will keep their troops from learning the true state of the case as long as possible. They have held out the hope of recognition and intervention, and made it plausible by circulating intelligence of co operating foreign pirate steamers, and their successes countenance and protection against the Federals in foreign ports. They have shown how the *Alabama* was permitted and honored for flying the flags of nations at peace with the North and grown eloquent over the perfidity of England in suffering their auxiliaries to complete their disguise with her flag, to the sudden annihilation of an unsuspecting war steamer of the United States. The Southern women have given up their luxuries, jewels and good breeding to aid their independence and spit upon the Northern troops. The wealth of the South has dwindled away in aid of the common cause, until, instead of being like the North, able to pay war tax upon increasing wealth and revenue, they have little or no property to tax. Subjugation, repudiation, poverty and almost annihilation will stare them in the face ere they are permitted the glorious privilege of returning to their allegiance, freed from the curse of their political leaders.

What will be the effect of Napoleon's fiat upon the traitors and Copperheads in the North? Will they persist in their course when the black flag no longer receives succor and honor from foreign powers, and the cause they are striving to promote is crushed out and dead! The head traitors of the North are too shrewd to be accounted traitors when treason is less prevalent. The determination of Europe to wipe out slavery is all that was needed to ensure the Union ticket a complete triumph next November—had there been a want in that respect. It will weaken the Copperhead cause about fifty per cent, and leave Northern traitors scarce a corporal's guard.

CROPS IN LANE COUNTY.—From personal observation, and information from various parts of the country, we are convinced says the State *Journal*, that crops in this vicinity are usually good. In the upper part of Coast Fork valley we observed very heavy crops of both wheat and oats. Along the Willamette and McKenzie Forks above here, the yield is also quite good.

FROM IDAHO.—We clip the following items from the Boise *News* of Aug 20:

The rates of fare to Salt Lake and the east by Holladay & Co's stages are as follows: From Boise City to Salt Lake in gold or its equivalent, $75 to Omaha or Atchison $150, each passenger allowed twenty five pounds of baggage.

Our friend, J. H. Mitchell an old typo turned clerk in Mr Irving's refreshment saloon, while out riding on mule back on Tuesday, had the misfortune to get one or his legs broken by the falling of the animal. The bone has been set and he is doing as well under the circumstances could be expected.

The *Golden Age* newspaper put in their appearance in Boise City one month since and hold forth this side of Walla Walla on the road before the paper proceeded the rest of the Messrs Reynolds having commenced the publication of the *Statesman* when he turned about with the intention of re establishing himself at the old stand.

A correspondent at South Boise sends us the following in relation to the Mammoth company:

The company own three locks, one of which (the Mechanics) is from sixty to one hundred feet wide and is supposed to be the main backbone ledge of the country. The other two the Rattlesnake and Texas, are very wide well defined, and the rock prospects well. The excitement at Rocky Bar may be said to be intense. The company has ground enough to run two hundred stamps.

NEW EXCITEMENTS.—For a week or two past parties have been quitting up and leaving, for some new discovery, in the direction of the head waters of the Payette. On Monday we had an interview with a gentleman who had just returned from a trip to that region, and he reports that about one hundred miles from here in a northerly direction, on the north fork of the Payette he found a bar that prospected about four cents to the pan, with some eighteen inches of wash ground but beyond that he was unable to find anything that he could call pay dirt. He had no difficulty in finding the color anywhere and everywhere and occasionally as high as a hundred colors were obtained, but so fine that it was a poor prospect notwithstanding their number. In his travels, our informant went within twenty miles of Warren's diggings. Water was plenty in the Payette where he found the four cent dirt and available to work the bar. He showed us some specimens of rose quartz, discovered by himself, on the side of the Payette, that were really rich in gold. The ledge, as well as he could judge, was five or six feet thick, and, as it is situated in this county, they come in to have it recorded. We have no doubt from the appearance of the rock, but they have found a country rich at least in gold bearing quartz, and perhaps in placer diggings, of this, however, we shall have more to say, as we are further informed who have gone with the crowd to see what it all amounts into.

MASSACRES ON THE PLAINS.—The Salt Lake *Vedette* says:

It will be remembered that early in July we briefly chronicled the fact that emigrants had been attacked by the Indians on Deer creek (one hundred miles west of Fort Laramie). From one of the emigrants who fortunately escaped and is now in this city in destitute circumstances, we have learned the following particulars, with the names of the killed and wounded. The attack was made on the 12th of July last by a band of Sioux and Cheyennes at Box Elder, above the mouth of Dry Creek on the North Platte. The following were killed: Noah Taylor, from Coffee county, Kansas, Arthur Wright, Minneapolis, Hannopin county, Minnesota, colored boy Frank Kansas, ——— Wakefield, Woodson county, Kansas, formerly from Maine. William J Larrimer, of Allen county, Kansas, was wounded in the thigh. His wife and child were taken prisoners by the savages, and were in durance two days. On the fifth day they came into Deer Creek all right. Mrs Fanny Kelly and niece were taken prisoners. The former is supposed to have escaped, but the niece a child, was found murdered and scalped. Our informant only escaped by belaboring his horse into a gallop and eluding the savage.

OPPOSITION STEAMSHIP MATTERS.—The San Francisco *Bulletin* has the following:

Rumors are afloat to the effect that C. K. Garrison has purchased the Pacific Mail and Nicaragua Transit Companies' steamers on the other side and will hereafter run them in connection with the vessels of those companies on this side, thus keeping up the prices of passage between San Francisco and New York. We are assured by those who ought to know that these rumors are wholly unfounded in fact. M. O. Roberts has sold his steamships to the Central American Transit Company, and the Opposition line will hereafter be managed by that Company, instead of by one individual, but we are assured that a *bona fide* opposition will be kept up, though perhaps the competition between the two lines will be conducted upon some understanding, implied or expressed that prices shall not be allowed to fall below to a certain remunerative standard.

THE INDIAN WAR.—The Denver (Colorado) *News*, of August 3d, gives the following account of a fight near Fort Larned:

On Sunday morning the 17th July, the Indians appeared as usual and began their dance. In the midst of the hubbub, a chief named Setauk fired upon a sentinel wounded him in the arm with an arrow. A mounted Mexican Indian fired at the same man at the same time, but the sentinel returned the fire and unhorsed the latter. This seems to have been the signal for an onslaught. The plains were instantaneously alive with savage. The women and children disappeared as if by magic, and the red devils began collecting together the stock and hurrying it away. All Capt. McLaine's Battery horses, quartermaster stock, train stock and even the beef cattle were driven away. After some time, a few shells were thrown among them and one bursted in the herd, drove out fifteen animals which was all that were recovered. The Indians remained in the vicinity all day and were very insolent.

On the next day the Indians attacked a train at Walnut Creek fifteen or twenty miles below Larned, and killed two men. Subsequently the *News* learned that two immigrants had been killed about 150 miles below Fort Lyon.

ADMISSION TO THE STATE FAIR GROUNDS.—The following, says the *Statesman*, is a correct list of the prices of admission to the Fair Grounds at Salem:

Single admission tickets are good for one day.

Season ticket for Gentlemen, during the Fair	$1 00
" " Ladies " "	50
Single admission for Gentlemen	50
" " Ladies	25
Children, under 12 years of age, free	
One horse	25
One-horse vehicle and driver, once	50
Two " " " "	50
Four " " " "	1 00

Each occupant of a vehicle, other than the driver, must have a ticket of admission or a single ticket.

LATEST FROM QUARTZVILLE.—Mr George L Jones arrived from Quartzville last night. He states that he and Mr Crandall who were going in by a different route from the one taken by the re treating party, arrived at Quartzville the next day after the evacuation of that place by the miners. They found the beans hanging over the fire, the coffee made and all things ready for the repast, the blankets, also, were spread down ready for turning in. There was no blood to be seen, no grim savage with uplifted tomahawk, and no smell of battle afar off. We suppose the four redskins made at least as good time as the twenty five whites, and before this are relating their grievances to the tycee at the Warm Spring Agency.—*Statesman*.

REPORTED OFFER OF A LOAN FROM HOLLAND TO THE UNITED STATES.—The Edinburg *Scotsman* of 10th July says:

It is quite true, we have reason to believe that Mr Chase, Secretary of the Treasury at Washington, had lately an offer from Holland of a loan of £20 000 000, *but on condition of the custom of Federal ports being pledged for the payment of interest*. This condition the Washington Government regarded in the light of an insult, and the negotiation was broken off.

The success of the rebel sharpshooters has made our commanders think more than ever of this branch of service. A battalion of sharpshooters is spoken of to be formed of volunteers from each division. They will be armed with heavy telescope rifles at their own expense. It requires no old soldier to calmly aim at a man with the knowledge that his victim must fall. The rebels will do it and the only way remaining to us is to beat them with their own weapons.—*Lynchburg Gazette*.

FINANCES OF LANE COUNTY.—We learn from the Eugene City State *Journal* that the finances of Linn county are in a very prosperous condition. From the Exhibit of the County Clerk, it appears that the amount of notes on hand amount to $766 52 cash in Treasury July 5th, $2 -51 17 making a total of $4 216 29 outstanding liabilities $196 81, which being deducted leaves in the Treasury clear of all indebtedness the sum of $4,019 48.

LINN COUNTY FAIR.—The Agricultural Fair of Linn county, will be held at Boston on the 7th and 8th of September next. Rev J. S. Kendall will deliver the address.

By Overland Telegraph.

HEADQUARTERS ARMY POTOMAC, Aug 21.—The *Herald's* correspondent gives the following particulars of rebel Gen Hagood's treachery in the battle of the 21st:

The rebels found themselves under gunpoint; fire of musketry and artillery, which caused them to throw down their pieces and raise their arms, which was considered as a surrender. Gen Butler sent Capt Daley of his staff, to receive them as prisoners. Our men having ceased firing, Capt Daley told Hagood he had been sent to receive him and his brigade as prisoners, and when without saying a word, Hagood drew his revolver and shot Daley. The Captain lived about half an hour—only long enough to make a statement that Hagood, after shooting Daley, called on his men to pick up their muskets and fall back, which they attempted to obey. Our men again fired, when they threw down their pieces the second time. This time they gave themselves up as prisoners. The second volley added largely to the number killed. Among the killed is Hagood, who was shot through the head. The number of prisoners is between five and six hundred. After two hours fighting, the battle ended. The same correspondent states that the rebels state that Gen Hood was killed on that day.

A special to the *Times* dated Washington 23d, says officers have just arrived from the front report an attack made Sunday upon our left by Gen A P Hill. He was knocked from his horse by a piece of shell and badly wounded. Gens Heath and Fitzhugh Lee, son of the rebel chieftain were killed.

A special to the *World* writes as follows:

WASHINGTON, Aug 23.—The *Star* this evening says, when the boat left City Point yesterday morning, Warren was still warmly engaged with the enemy, who were trying to dislodge him from his position. His position is much strengthened and is impregnable.

NEW YORK, Aug 23.—A Washington special says: Warren's corps achieved a grand success on Sunday, the rebels attacked our position under orders from Lee that we must be driven from Weldon railroad at whatever sacrifice. The rebels were allowed to pass through a gap left in our lines, and suffered severely, while their purpose was entirely defeated.

Gen A. P. Hill is reported mortally wounded. Heath and Lee, son of R. E. Lee, Col of the 16th Mississippi, are prisoners and wounded. Our loss is 140. We took five stands of colors—three of which were entirely new. In the fight of Friday, our loss in prisoners is believed to be larger than heretofore reported. The 9th Pennsylvania lost more than half their number, as was the case in fact, with all the regiments of the brigade. The 18th New York lost every officer on the field, and can muster but a few men for duty. Had they held their position or changed their front, they could nearly all have saved themselves and given the enemy a sound thrashing. Being told that they were flanked, they startled for the rear and fell into the arms of the rebels.

Col Wheelock's two brigades 3d division, changed front towards the rear, forming a line with skirmishers thrown out and advanced to where the enemy were, and reached our second line without losing a man. This brigade brought with them 60 prisoners and a stand of colors, besides taking many of our men who were being taken away.

WASHINGTON, Aug 23.—Official news from Atlanta is hopeful. Authentic information shows that Kilpatrick has returned from a raid on Macon rail road without serious loss. He brought one piece of artillery and 70 prisoners and effectually destroyed two miles of the railroad in a genuine place.

Letters dated Hagerstown, (Md.) Aug 22d says: A detachment of the 3d Virginia cavalry entered Martinsburg yesterday, and drove out the rebels. Latest accounts say that the place holds out.

Averill holds the river ford, watching the movements of rebel raiders. The excitement occasioned by anticipation of an invasion has somewhat subsided.

NEW ORLEANS, Aug 16.—Land forces under Granger, are within 300 yards of Fort Morgan. A general assault will be made in a few days. The fleet is full prepared. The ram *Tennessee* is reported to have sent the first shot into the fort which is mysteriously silent. There is seven feet of water to Mobile. Monitors are expected to ascend to Mobile.

Reports of an assault and slaughter on our troops is untrue.

LOUISVILLE, Aug 23.—Col Johnson of the 52d Kentucky overtook the rebel Johnson's force at Canton, Ky, yesterday, while attempting to cross the river. Killed 14 and wounded a large number, capturing 100. Adam Johnson is a prisoner and severely wounded.

Guerrillas crossed Ohio county and went into Butler, Ky, Sunday. They were encountered by Grayson's home guards, who killed five and captured the remained.

NASHVILLE, Aug 2.—A dispatch dated Lick Creek, East Tenn, from Gen Gillet, to Gov Johnson says: "A detachment of my command, under Lieut Col Edgerton, 13th Tenn cavalry, attacked Rogersville this morning, (22d,) killed 2? capturing 30. Among the number was Col Walker and several non-commissioned officers.

BALTIMORE, Aug 24.—Intelligence from upper Potomac, if taken of nothing more than slight skirmishing between our forces occupying a strong position, and the rebels, who occupy country. Their direction is Martinsburg and have not crossed the Potomac.

WASHINGTON Aug 23.—A dispatch from Hagerstown says all is quiet along the border. There is no fighting in the valley. Our forces destroyed a rebel supply train on the 19th, on the Martinsburg pike.

NEW YORK, Aug 24.—The morning papers contain little news additional to what was telegraphed last night.

The *Herald's* 19th corps correspondent says our forces have withdrawn from Deep Bottom on the night of the 20th inst.

Important co operative movement was made by the 10th corps which was commenced this morning. Details will reach you at a proper moment.

From a Richmond, dispatch dated Aug 20th, we learn important news. A force of the enemy are advancing from Pensacola toward Mobile. We had previously heard this as a rumor but preferred to await confirmation before making it public.

A Harper's Ferry dispatch to the *Herald* dated 11 30 A M, Aug 22d says there was skirmishing all night, which extended along the whole line. The rebels made several charges, which drove our men in. We were rapidly driven through town and out on Harper's Ferry like—the rebels following very close. Our whole army is now strongly posted on the heights in the rear of this place. The enemy is close upon us, but being us so strongly reported did not risk an engagement.

CINCINNATI, Aug 2.—Gov Brough has issued a proclamation to some persons in Ohio who are preparing to resist the draft, warning them to desist from their purpose.

Fernando Wood in a speech delivered at Dayton last night asserted that peace men on a peace platform would be nominated at Chicago, and that the Convention would be harmonious.

The *Gazette* Chattanooga correspondent says that not but Gen Sheridan in a fight Straight were injured at Dalton, and they both are well.

MEMPHIS Aug 21.—Memphis was attacked at 10 o'clock this morning by Gen Forrest with three brigades of cavalry 4 000 strong. They left Smith's front at Oxford on the 19th and made a forced march to this city, drove in the pickets and dashed directly to Washburne's headquarters who had a narrow escape. They then went to Buford's head quarters, but he also escaped. They attacked Irving prison but were repulsed by the guard. They next visited Gayoso house, expecting to capture Gen Hurlburt, but he was stopping at the house of a friend. Our troops now attacked the rebels and soon drove them from the city, killing 20 and wounding 100. They captured 30 or 40 horses but had no time to plunder. Our loss is about the same as that of the rebels. Washburne will carry out a plan which is expected to result in the capture of a large portion of the attacking party.

LATER Aug 22.—The rebel force to Memphis yesterday was a complete failure and is so admitted by Forrest. His intention was to capture Washburne and the officers on staff, and then our troops being without officers they would plunder the city. They captured some of the provost guard including two officers and several clerks and telegraph operators.

Numerous acts of cruelty were perpetrated by the rebels.

Among the wounded are Col Starr of the 6th Illinois cavalry, and Lieut Irwin of the 5th Iowa who has since died.

BALTIMORE Aug 24.—Reports received via the Northern Central Railroad say that the rebels are off the Potomac.

There is no thing direct from the Upper Potomac.

HEADQUARTERS Army of the Potomac, Aug 23.—The enemy withdrawn from our front early yesterday morning. The 6th and 9th corps are on the ground. It is believed that the attempt to organize this important line of communications has been abandoned. The enemy are fortifying their right flank to prevent an attack from this direction and may be preparing to make a rush on our lines in some other direction.

The roads are not making traveling exceedingly difficult.

Several deserters came in, some of whom think the end of the war near at hand and believe that Petersburg is almost within our grasp and will be in our possession at an early day.

Private dispatch quote gold in New York on the 22d 250 for 100 sterling exchange at 1084, gold price.

RETURN OF WELLER.—Col Weller was released recently, and the agony of the Copperheads has passed. If his discharge is not misconstrued by the Secessionists, it may have a salutary effect upon that class of our citizens. Such speeches as Weller's will not be permitted from any man while he enjoys the protection of the Government. Virulent Copperheads and violent Secessionists must understand that the Government that has the power to protect, has the power also to punish, and those who ask its protection yield a right which holds them responsible for its abuse. If the Democracy will temper their "raids" on the Government to a bearable point there will be no more arrests. But if Copperheads attempt to intimidate the officers of the Government, and hunt prosecution, they will find it. Two bodies moving towards each other from opposite directions, are pretty sure to come to a collision.—*Marysville Appeal*.

SEWING MACHINES.—We have lately had occasion to look somewhat closely into the peculiarities and advantages of the different sewing machines. Among them all, there is none which seem to us to combine the qualities needed in a family machine better than that of Messrs Grover & Baker. In the course of our investigations, we conversed with a couple of gentleman who, we thought, would be good judges—one of them being a superior mechanic, and the other having had considerable experience in using different machines. They both coincided in the opinion we have expressed above.—*Sabbath Recorder*.

DR. WM. HALL'S BALSAM

CURES ALL DISEASES OF THE

LUNGS AND THROAT.

CINCINNATI, Jan. 8, 1861. *Messrs. A. L. Scovill & Co—Gentlemen: I feel it a duty I owe to others to let them know the value of your Dr William Hall's Balsam for curing of Croup. My little girl, seven years old, had an attack of Croup, and came very near dying. I gave her Dr Wm Hall's Balsam as directed, which gave relief in a very short time. all humors and impurities, we assort with confidence that

BOILS,

WE READ THAT ONE OF

the surest afflictions that the patient Job was called upon to bear was that of boils and they have been found to be, from that time to the present, the most troublesome and painful of visitors. We have known instances where individuals were sure to have these eruptions break out upon them once a month at least. They show an impure state of the blood and that humor of some kind is lurking there, and the overplus of corruption is actually forced to the surface of the body, making its appearance in the form of Boils. Now is it not best at once to purify the system? Do you ask what will do this? We answer **Scovill's Blood and Liver Syrup.** It is curing humors in every form; and there is not a State in the Union where it has not accomplished the most astonishing cures.

THE FIRST DISPATCH.—In these times of "first dispatches," incident to the construction of new telegraphic connections, ect., it may not be unimportant to know what was the "first message" ever transmitted by telegraph in Oregon. On Friday afternoon, the 2d of November, 1855, the first telegraph wire was attached to the poles in Oregon on Front street in this city. Among the citizens present, voluntarily assisting in the work, was Hon T J Dryer, formerly Editor of this paper. The first message was transmitted by means of a ground wire, from near the present business place of Messrs Goldsmith Bros, Assayers, to the office over the present store and tin ware store of Friedman & Co, formerly A M & L M Starr, corner of Front and Stark streets, and announced the death at the Dalles of Mr Andrew Weisenthall, a young man highly esteemed and respected among his Portland friends. After a delay of some weeks in procuring wire, and labor in placing it upon the poles, communication was established between Oregon City and Portland. During the following winter and spring the line was pushed forward to Lafayette, Dayton, Champoeg, Butteville and other points up the Valley. Owing to the financial inability of the Company, a general want of confidence among the people in regard to its use, the returns on capital invested in it, and a distrust of its projectors, the line was allowed to languish. The line was enterprise was allowed to remain down in many places and the suffered to remain down in many places and the honest Web Feet found that a few yards of wire would make a good clothes line. This idea, so brilliant and original, was universally put into practice, and also went the greater portion of the line. It is creditably reported that one poor fellow, who was keeping a ferry across the Tualatin River, managed that the line, crossing the river at his ferry, was some cunning speculator's scheme, to swindle him out of certain rights vested in him by the laws of Oregon, and the Board of County Commissioners, as a ferryman, and knowing the delay and trouble of law, took the matter in his own hands and had wire on each bank of the river, and threw the severed section into the stream. This feat he performed twice. Under an accumulation of such difficulties it is not much wonder that the enterprise was a failure. In the spring of 1857 other parties revived the matter, and a line was established from Portland to Corvallis, but again a want of capital induced failure, and thus telegraphing in Oregon was numbered among the things that were, until the present scheme was planned, and now it seems being carried on very successfully. Perhaps during the present week the first dispatch will be forwarded to the National Capital from the most remote City in the North West.

THE SPEAKING SATURDAY NIGHT.—Owing to a misunderstanding the hall of the Court House was not lighted until near the hour. Hon J H D Henderson was announced to speak, but when the room was thrown open it soon filled with people, and a stirring speech, full of patriotism, and earnestness for the cause of republican liberty, was given to us by the champion, who so lately drove the repugnia democracy to the wall, in the contest for a Representative in Congress. The people of this State have much cause for congratulation in having such a man as Mr H to fill that position. We feel that Oregon's interests will not suffer in his hands at Washington.

RECORDER'S COURT.—Saturday was a busy day with his Hon Judge McCoy, and no little interest was manifest in the proceedings of the Recorder's Court. "Little Gus," James Thompson, and Henry Hagerman plead guilty to charges of disturbing the peace and were fined $10 each, with costs, which they paid. John Mackay was fined $5 and costs which he paid. Benjamin Dewitt, discharged as Dobson forfeited his bail $50, in a case of violation of City Ordinance. In the case of the State vs Jas Dobson, defendant was required to give bonds in the sum of $500 to keep the peace for six months.

ARRIVAL.—The bark *Jane A. Falkinburg* James Frost Master, sailed from San Francisco for Portland August 20th. Reached the mouth of Willamette river on Friday, and arrived at Portland, in tow of the steamer *Julia* Saturday night. She brings an assorted cargo of 580 tons. The following are consignees:

Allen & Lewis, Sellers & Co, Linn County Woolen Manf Co, Fitch & Co, J Wolf, Hodge & Coil, Dekum & Co, Smith Bros & Co, Allen & Co, Chapman & Co, Hudson Weldon Bros, Fraser Bros, Raffle & Hart, Willamette Manf Co, H W Corbett, Ferguson & Shindler, W C Ripley, O Smith, G W Vaughn, Kilpatrick Burrell & Co, J H Lewis & Co, J G Reed & Co, D J Northrup & Co, M Keller & Co, Bissel, Miller & Co, H L Hoyt, Bunnell Bros, H A Black & Co, Milwaukie & Morrison Mills Bros, England & Carlaman, Chas Barrett, M Rosenblatt & Co, W Weatherford & Co, H A Newell.

THE "CONGRESSIONAL CHURCH."—A good story is told of our whilom friend J, who was proceeding down a street yesterday near the Plaza, with an acquaintance when they were met by a stranger who inquired the way to the Congregational Church. Neither could inform him of the locality, and they passed on. Presently J— raised his head and in a strange manner and "Well, that's rich! I've lived in Portland long enough, I should think, to know where the *Congressional Church* is!" but it did not occur to him.

HEAVY ROBBERY.—A man lately returned from the mines was invited by a party of "sports" to take a hand at some clever game on Saturday, just previous to the departure of the ocean steamer for California, which he did, and shortly found himself minus, to the tune of about $5,000. Various reports were in circulation on the streets as to the manner in which he was "fleeced," all of which point to ease as being a down right robbery. Three of the confidence men and the victim, left by the steamer for San Francisco.

FREIGHT TEAMS.—There were more teams in the city Saturday, loading freight for points above the Willamette Falls, than we have seen since the season of low water, which drove steamers from the trade. As we progress in growth there should be a corresponding degree of improvement in our modes of transporting freight in this valley, to prevent taking a step backward. We thank the seasons are about numbered when freight will be delivered from Portland to Salem in wagons.

KNOCKED DOWN AND ROBBED.—Private watchman Skidmore picked a man up in on the street in an insensible condition on Saturday night, near the drug store of Dr Weatherford, whose statements, when he was restored to consciousness, conveyed the intelligence that he had been knocked down and robbed. We did not learn his name nor the particulars of the affair.

SAILING OF THE SIERRA NEVADA.—The steamship *Sierra Nevada*, Francis Connor Commander, sailed from the mouth of the Willamette river on Saturday evening, for San Francisco. Her freight was not large, consisting of light lots of wool, flour, etc. She carries 126 passengers, and $176,609 95, by three principal shippers. The detention of the previous steamship made some difference with this treasure report.

MILITARY MOVEMENTS.—The Militia of the Second Brigade, under Brigadier General Coffin, have been ordered to Salem on the 27th of September, for inspection and review. Company A, of this city, under command of Capt Powell, will go into encampment on the 5th, for drill one week.

STAGE OFFICE REMOVED.—The office of the California Stage Company in this city has been removed from the Pioneer, corner of Washington and First streets, to the Dennison House, corner of Stark and Front. Mr B G Whitehouse retains the position of Agent, a place he filled for several years.

SHOOTING AFFRAY.—A affray occurred at one of the boot black stands on Washington street on this

"A Slight Cold," Coughs.—Few are aware of the importance of checking a Cough or "slight cold" in its first stage; that which in the beginning would yield to a mild remedy, if neglected, soon attacks the lungs. *"Brown's Bronchial Troches"* give sure and almost immediate relief. *Military Officers and Soldiers should have them, as they can be carried in the pocket and taken as occasion requires.*

REDINGTON & Co., San Francisco, Agents for the Pacific Coast.

Oregonians should test the merits of Dr. HOSTETTER'S STOMACH BITTERS. While it is highly palatable as a beverage, it is unequaled as an invigorator. In the pursuit of fortune at the mines, many persons are exposed to the attacks of complaints of the digestive organs, and of various kinds of fever. It is the very article that has so long been in demand at the mines. Its daily use will restore the tone of a deranged stomach, impart fresh vitality to the digestive functions, and cheer the spirits. Yet the Bitters is the safest of all stimulants. Let the miner who is exposed to hot and dry, wet and cold, be certain to obtain a supply of the genuine Hostetter Bitter, and he will find it a certain safeguard to health.—Sold by Druggists and dealers generally. jy26daw

Dysentery.—For Dysentery and similar complaints of the Summer season, the PERUVIAN SYRUP has proved a remarkable preventive and cure. By imparting tone to the intestinal mucous membrane, it places this surface in the best possible condition to resist the irritation of crude and indigestible articles of food.

Periodical Headache—so common in unclosed and marshy countries, Tic Douloureux, that most painful affection of the nerves of the face, are often only attacks of ague in disguise—proceeding from the same noxious influence. Jaundice, Dyspepsia and Diarrhea, are frequently but disguised forms of Intermittent Fever. Even Rheumatism and Epilepsy, often result from the same miasmal cause. For such, Dr. Osgood's India Cholagogue is an unfailing remedy. By striking at the root of these affections, it applies with equal certainty, as for the cure of Fever and Ague in its simplest forms.

Imitations are abroad! Be particular to enquire for *Dr. Osgood's India Cholagogue.* Sold everywhere.

HOSTETTER'S
CELEBRATED
STOMACH BITTERS.

THE OPERATION OF THIS PALATABLE REMEDY upon the stomach, liver and excretory organs is singularly soothing and conservative. It regulates, recruits and purifies them. Dyspepsia in all its forms yields to its control and invigorating properties.

Invigorate the System.

Vigorous digestion and pure bile produce nutritious blood, and nutritious blood a healthy frame. Does the victim of a dyspeptic stomach and a disordered liver desire to know how the digestion may be improved, the bile and other fluids of the body purified?

Dr. Hostetter's Stomach Bitters

Will accomplish this desirable revolution in the system, regulating the secretions and excretions, giving tone to the animal juices which dissolve the food, strengthen every relaxed nerve, muscle and fibre, and brings the whole machinery of vitality into vigorous and healthful play.

Strengthen the System.

The best means of imparting vigor to the broken-down frame and shattered constitution, which has yet been invented or discovered, is proffered to the feeble of both sexes and all ages in

Dr. Hostetter's Stomach Bitters.

Debility, from whatever cause arising, may be cured; strength, to whatever manner it may have been wasted, may be restored by the use of this powerful and healthy invigorant. For indigestion and all its painful effects, bodily and mental, they are a positive specific.

A word to the Aged.

In the decline of life, the loss of vital force consequent upon physical decay can only be safely supplied by some wholesome preparation which recruits the strength and spirits, without entailing the exhaustion which is always the final effect of ordinary stimulants. We tender to the aged

Dr. Hostetter's Stomach Bitters,

As an invigorant and restorative, immediate in its beneficial action and permanent in its effects. It tones the stomach, improves the appetite, and acts like a charm upon the spirits.

For Females,

Thousands of ladies resort to it as a remedy for hysteria, fluttering of the heart, nervous headache, vertigo, general debility, and all peculiar disturbances and derangements to which, as sex, they are subject. It cheers and enlightens the depressed mental powers, as well as strengthens the body, and its use is never followed by any reaction.

Who is the Good Man?

Who is the good man? Is it he
Who, conscious of superior power,
Ignores himself, that he may be
Of use to others every hour?

Carries the man who thus would use
His powers, to aid his fellow man—
Who ne'er his influence would refuse,
The flame of human love to fan—

Must bear a larger, loftier soul
Than millions of our selfish race
Who only seek to reach their goal
By means however low and base

Then let us contemplate this man,
Though his existence be ideal
And while with earnest thought we scan
His points, imagine he is real

Would he be tender? Or be stern?
Patient? Or full of fretfulness?
Quick for his vested rights to turn,
And fierce those vested rights to press?

Would he neglect the claims of others,
To nurse with jealousy his own?
Or judging all mankind as brothers,
Stand up, sometimes, for theirs alone?

Extreme to mark what's done amiss
Against himself? Or patient when
His wrongs are greatest? Seeking bliss
In righting wrongs of other men?

Fickle in temper? Losing head
For every fool that wags the tongue?
Thrown off his balance by the dread
Of wit's frail shaft against him flung?

I tell thee, friend, that no one fool
Nor all the fools arrayed together,
Could turn that man of brow so cool—
My friend, the good man is no feather

His well poised temper never fails—
He cannot lose his self respect—
And when the storm of wrath assails,
He stands, in conscious strength, erect

He bears with peevish ones, and makes
Allowances for the soul that's weak;
Ingratitude he calmly takes,
And smiles at insolence a freak

He shuns the dark revengeful mood
And by fresh kindness nobly given
O'ercomes the evil by his good—
All-powerful attribute of Heaven

In short, no fiendish hate without,
And no ill temper throned within,
Can turn this noble one about,
Nor swerve him from the path he's in

For inborn generosity
Can tread no pathway save its own
Benevolence, pure-souled and free,
Smiles at the dirt before it thrown'

Yes, let us dream of such a man,—
A tower of magnanimity,
Whose lofty soul with ease may scan
What others can but dimly see!

Haply our dreams, by Morpheus arts
Unknown to shallow mortal ken,
May graft his virtues on our hearts,
And make us better, happier men

THEODORE J ICKERSON

Vancouver, August 25 1864

THE PLATFORM OF AN UNCONDITIONAL UNION MAN —Schuyler Colfax late Speaker of the U S House fo Representatives, wrote a letter to the Union Convention of the Ninth District of Indiana, prior to his renomination by that body, in which he thus defines his political creed

I justify the Administration in its denial to suspected traitors and their abettors of the writ of *ha beas corpus*, for, as I read the Constitution, this was the express intent of its framers when in time of insurrection the public safety may require it

I justify it, also, in what is denounced by its enemies as "arbitrary arrests," and only regret that any thus arrested, against whom there seemed reasonable suspicion, like Marshal Kane and others, were discharged without a trial

I justify a Butler in daring to hang a traitor in New Orleans, and a Burnside in arresting an influential politician for publicly defying and spitting on a military order deemed essential for the nation's cause

I heartily approve of the President's Emancipation Proclamation, and his solemn declaration that no slave of any State, whether on the border or farther South, who fights for his country shall ever wear the chains of bondage

I am for the most vigorous exertions to reinforce our armies by the largest possible addition of colored troops, and only regret that the persistent opposition to them by the enemies of the Administration, their Congressmen and their presses, has retarded their organization, which, had they unitedly aided in the work and encouraged it, we might have had ere now 400,000 of just such soldiers instead of 100,000 and avoided all impending drafts.

I endorse most heartily the policy of confiscating the property of rebels voluntary in arms against their country and who, guiltier than the ruffianly, seek to involve country and citizen alike in a common destruction

I am for striking at slavery, the cause of all our woes and the progenitor of this gigantic rebellion with every power under our control—war power of the army, the naval power of the navy, and the proclamation power of the President—and for its final and irrevocable extirpation from the land by an amendment to the Constitution, which shall make that instrument, as well as the republic itself, forever free, and thus, also, obey the divine injunction, to break every yoke and let the oppressed go free

I am against treason whether it rears its hideous form in front of our patriotic and gallant armies or under the roof of our capitol in the streets of New York or within the borders of Indiana, and I am against the severance of the Union by the sword of rebellion, by a degraceful compromise or by a base surrender of the sacred cause in which so many martyrs for the right have so sadly and bravely fallen

And to sum up, I am for Abraham Lincoln—the pilot who shrank not in the darkest hour—and for Andrew Johnson—"faithful among the faithless found"—for the highest offices in the nation's gift, of which they are each so worthy

STEAMER LAUNCH —Our information was incorrect yesterday, which said that the tow boat at Steamboat Point would not be launched until next week She was forced from her ways last night at 9 o'clock and 20 minutes gliding gracefully into the bay without hindrance or accident She is owned by Messrs Pope & Talbott and was built by Mr D Marquet She bears no name as yet Her length is 130 feet, her beam 26 feet 8 inches her depth 8 feet 4 inches Her boilers were manufactured at the Pacific Foundry She contains two 16-inch cylinders with 5 feet stroke and will possess great power Her destination is Puget Sound where she will operate as a tug —*San Francisco Flag*

In cleaning vessels of barnacles etc a diver encased in the usual helmet, sits upon a spar lashed across the vessels keel, armed with a scraper with which he cleans the portion within his reach before and abaft The spar is then shifted and he proceeds regularly till the work is completed It is stated that the operator remains under water several hours, and that the munitors at Charleston are kept clean by this process It was found by actual measurement that 2,000 bushels of oyster shells and sea grass was removed from the Monitor at the encampment of one season The officers sometimes indulge in a mess of oysters raised on the hulls of their own vessels

Railroad Meeting.—A meeting was held at St Helens, Columbia county on Saturday, Aug 20th, for the purpose of discussing matters generally in connection with the contemplated railroad through this State Col Barry was present and addressed the meeting—giving much information and offering such suggestions as would be most likely to advance the proposed work From the manner in which many others present expressed themselves as well as by the general tone of the meeting it is evident that the project is viewed with the greatest interest and will receive every encouragement from the inhabitants of this section of the country

On motion, Messrs Col Barry J Hamilton H Cupiss and Lancaster were appointed delegates to attend the meeting of the company this fall A committee of Messrs G Thing, S A Mills and J Wood urged also appointed to wait upon the last two named delegates to inform them of the wishes of the meeting

It being ordered that a copy of the proceedings be sent to the OREGONIAN for publication the meeting adjourned

C H BRACKETT Esq Agent for the National Freedmen's Relief Association in Oregon—*Dear Sir* —The undersigned members of the State Committee for the National Freedmen's Relief Association in Oregon, would take pleasure in thus expressing their unqualified approbation of the able and efficient manner in which the claims of the Commission which you represent have been presented by you to the people of this state We feel no hesitation in saying that your efforts in this behalf, long continued and persevering as they have been, have, considering the unfavorable circumstances under which they have been prosecuted been eminently successful in awakening our citizens to a proper appreciation of the great philanthropic objects of the National Freedmen's Relief Association.

And believing as we do that it should thus act in motion it will continue to roll on the high all generous tide which at once all over all our golden mountains and fertile valleys of this broad Columbia river the same distance intimately associating with the people I am prepared to say that a higher—truer appreciation of the just claims of the Freedmen is arising, in the minds of your fellow citizens and that all for the race so long neglected will be induced the American people in the past have been schooled by the slaveholding interest in reference to the Africans the result is seen in regard to universal intelligence, and which in the light of freedom's civilization we must unlearn A class of politicians and preachers, few in number, who have in the past been the defenders of slavery seem now equally slow to see the just claims of the white and black refugees which are equally recorded to by this Association at this time

The General Conference of the Methodist Episcopal Church for the United States in its recent noble action for this cause affords a beautiful example for all Christians in this, as other sections

The hundred and twenty thousand colored soldiers in the field, wearing the uniform, carrying the arms and aiding to maintain the flag of our common country and the fifty thousand otherwise employed in our land and naval service, a thought as to what we have done to part from towards the race that furnished them at Port Hudson Wagner, Vicksburg, Milliken's Bend, and upon the never to be forgotten bloody field of Fort Pillow

The policy of our Government in favor of the freedom of the races in fact as a military measure is by no steps backward will be taken and we know that four millions unite with the approval of all christendom to come up from the poverty and woe of slave to the rich blessings of freedom

I permit me to say, gentlemen that your efforts in behalf of this cause will be remembered in the future, and approved by a Nation now rising to the highest elevation of justice in behalf of the oppressed

With sentiments of respect,

Yours very truly

IODINE WATER.

IODINE WATER IS THE MOST IMPORTANT DISCOVERY of modern chemistry, and it is impossible to over-estimate its influence as a remedial agent. Iodine has been considered the most useful article in Materia Medica, and many of the most scientific and practical chemists and physicians have investigated its effects upon the human system It is to act upon the

HEART, LIVER, KIDNEYS, DIGESTIVE ORGANS AND GLANDULAR SYSTEM,

and to have great control over

SCROFULOUS AFFECTIONS.

Notwithstanding the zeal and ability which have been devoted to its investigation it remained an object useless until Dr Henry Anders a physician and chemist of New York, after years of patient labor and experiments discovered a chemical process which enabled him to dissolve

PURE IODINE IN PURE WATER.

without a solvent This considered impossible by the scientific world, is attested by certificates of many as from Dr J R Chilton of this city, and Prof Booth U S Mint, Philadelphia The importance of this discovery was so highly appreciated by the Faculty that it was published in the Medical Journals and its use recommended to practitioners (see 'American Medical Monthly, July 6, 1856, page 76)

This valuable medicine is now available to the public for the cure of Scrofula in all its manifold forms Consumption, Cancer, Heart Liver and Kidney Diseases Rheumatism Neuralgia, Nervous Affections Dyspepsia, Bronchitis, etc

AS A TONIC

Its operation is evinced by strengthening the digestive organs and increased nutrition of the body is the result of the employment of Iodine The patient recovers flesh strength and color, hitherto pale, relaxed and feeble, he becomes full strong and florid
